

ELECTRONIC LIBRARY INDEX

Our Electronic Library is divided into four sections; Surnames, Publications, Newsletters and Research.

The Surname section contains ancestral reports starting with the earliest known member of that surname and continuing to present day descendants. Many of the surnames have cross-pollinated into other family trees so concentrating on just one or two surnames may leave out important clues to your family research.

Our Publications section is a collection of books and other material that many have found helpful in building their family history.

Newsletters are, as its name implies, copies of our monthly newsletter. This section of our library, when completed, will contain copies of every issue since our beginning in 1987. We are in the early stages of building this library, so check back often to what has been added.

The Research section is a list of on-going research projects which have been opened to the public for comment and participation.

These electronic files are made available only to our membership. If you are not a member but see something that is of interest to you, we suggest you consider joining our group. Membership is only \$15.00 per year and can be paid through PayPal or by check if you prefer. Return to our web site and click on the ***About Us*** tab, then click on ***Membership*** to find more information on becoming a member.

SURNAMES

Adams	Alexander	Barron	Beazley
